Analyst Chelsea Griffin

Date March 16, 2022

Summary

This act authorizes towns and any political subdivision of the state with statutory sewer ownership or operational responsibilities to establish an inflow and infiltration program, in addition to home rule charter and statutory cities which already have this authority under current law.

Section 2 of the act makes a conforming change to reflect the fact that towns and other political subdivisions do not necessarily have a governing body referred to as a council.

Effective March 5, 2022.
