Establishes separate licensure requirements for teachers of oral/aural deaf education who do not use American sign language (ASL) to instruct their deaf and hard-of-hearing students. The proposed licensure requirements would obligate teachers of oral/aural deaf education to acquire minimum competency in ASL but would not subject these teachers to ASL guidelines already established in law.

   (d) Includes minimum competency in American sign language (ASL) as a licensure requirement for teachers of oral/aural deaf education.
