Overview

This bill repeals numerous delegations of rulemaking authority to state agencies. The delegations that are repealed typically authorize an agency to adopt rules to cover all of an agency's programs, or broadly authorize an agency to adopt rules for an entire program. The repeals of authority are effective July 1, 1999. The last section of the bill provides that these repealers do not affect rules adopted before July 1, 1999.

Section
1 Ethical practices board. Strikes general rulemaking authority for the Ethical Practices board.
2 DNR. Strikes general authority of commissioner of natural resources to adopt rules governing use and enjoyment of state land, parks, trails, monuments, scientific and natural areas, wilderness areas, and recreational areas.
