Cocurricular activities authorization. Directs school boards to adopt rules and regulations governing cocurricular activities that allow school-age children residing in the district, including children who attend a nonpublic or home school located within the district to participate in the cocurricular activities unless the nonpublic or home school offers the cocurricular activity. Requires all participants in cocurricular activities to pay the same amount of money to participate.

Board control of extracurricular activities. Requires a school board to ensure that all school-age children residing within the school district, whether they attend a public, nonpublic or home school located in the district, are eligible to participate on an equal basis in the extracurricular activities the board controls and in the extracurricular activities that are self sustaining unless the nonpublic or home school offers the extracurricular activity. Defines extracurricular activities to mean all direct and personal services for public, nonpublic and home school pupils for their enjoyment that are managed and operated by an adult or staff member.

Shared time pupils. (b) Requires a school board to allow a resident pupil to attend a public school program as a shared time pupil unless the capacity of a program, class or school building precludes the pupil's attendance. Prohibits a school board from preventing a resident pupil from attending a shared time program based upon the pupil's previous academic achievement, athletic or other extracurricular activity, disabling conditions or proficiency in the English language.

Effective date. Makes sections 1 to 3 effective for the 1999-2000 school year and later.
