### Overview

Provides an in-blank general fund appropriation for capital improvements, for a grant to fund initiatives to encourage organ, eye, and tissue donation. Earmarks a portion of the appropriation for a mobile learning center to provide interactive education about organ, tissue, and eye donation. Specifies by reference that the appropriation in this bill does not lapse until the appropriation's purpose is accomplished.

1. **Appropriation; Minnesota donor decision campaign.** Makes an in-blank general fund appropriation to the commissioner of health for a grant to fund initiatives to encourage organ, eye, and tissue donation. The commissioner must give the grant funds to a Minnesota organ procurement organization that is certified by the federal Health Care Financing Administration (HCFA), or to a charitable entity that is created by a HCFA-certified Minnesota organ procurement organization. (Under these criteria the grant will go to LifeSource or to a nonprofit entity created by LifeSource).

Earmarks an unspecified portion of the total appropriation for a mobile learning center to provide interactive education about organ, tissue and eye donation to the state's citizens. Specifies that this appropriation is for capital improvements, and that under Minnesota Statutes, section 16A.28, subdivision 5, the appropriation does not lapse until the appropriation's purpose is accomplished or abandoned.
