Overview

This is a purely technical bill dealing with an inflation adjustment procedure used by the Minnesota Petroleum Tank Release Compensation Board for reimbursing landowners for the cost of cleaning up leaks from petroleum tanks. The dollar amounts of reimbursable expenses and the procedure for the inflation adjustments are already in Minnesota Rules. This bill would provide for the Revisor's office to update the costs stated in the rules to reflect the adjustments arrived at by the board, upon written notice from the board.

Section

- 1 Rules.** Requires the Revisor of Statutes to update Minnesota Rules as necessary to conform to the inflation adjustments determined by the Minnesota Petroleum Tank Release Compensation Board under the board's authority to make those adjustments. Requires the updates to be made upon written notice to the Revisor from the board.
