This bill repeals a provision of law originally enacted in 2009 related to data collected by the department of natural resources to issue certain types of licenses.

Section 13.7931, subdivision 6, is a cross reference to the classification; section 84.0874 contains the substantive classification, as follows:

"The following data created, collected, stored, or maintained by the department for purposes of obtaining a noncommercial game and fish license, cross-country ski pass, horse pass, or snowmobile trail sticker; registering a recreational motor vehicle; or any other electronic licensing transaction are private data on individuals as defined in section 13.02, subdivision 12: name, addresses, driver's license number, and date of birth. The data may be disclosed for law enforcement purposes. The data, other than the driver's license number, may be disclosed to a government entity and for natural resources management purposes, including recruitment, retention, and training certification and verification."

The repeal would be effective the day following final enactment.
