---

Adds cross-references to the primary predatory offender community notification provision in section 244.052. The cross-references are to a provision of law enacted this session that authorizes full community notification for patients released from the Minnesota Sex Offender Program (MSOP) to half-way houses/residential facilities. The new language makes it clear to users of the statute that they need to look to chapter 253B for additional guidance on how community notification applies to patients released from MSOP.
