Overview

This bill (1) directs the commissioner of human services to develop content to be included on the MNSure website explaining the TEFRA option under MA for applicants who indicate during the online application process that a child in the family has a disability, (2) requires the commissioner to convene a stakeholder group to consider improvements to the TEFRA enrollment and renewal process, and (3) lists the membership of the stakeholder group.

TEFRA is an optional eligibility category under MA. Under this option, only the child's income is counted and parents pay a parental fee. In order to be eligible under the TEFRA option, an individual must:

- be under age 18;
- have a disability determination from the State Medical Review Team (SMRT);
- require a level of home health care comparable to the care provided in a hospital, nursing facility, or ICF/DD;
- have MA home care costs that do not exceed the cost to MA of institutional care;
- live with at least one parent; and
- meet the MA income standard (the income limit is 100 percent of FPG and only the child's income is counted).
