

Subject Establishing a Green Roof Advisory Task Force

Authors Loeffler

Analyst Bob Eleff

Date March 4, 2019

Overview

House File 1570 creates a Green Roof Advisory Task Force and charges it with the preparation of a report on existing laws in other jurisdictions pertaining to green roofs, impacts of green roofs on building energy use and greenhouse gas emissions, and green roof costs. Green roofs are defined as those containing either solar photovoltaic devices or vegetation.
