**Date** March 18, 2019

## Overview

This bill directs the Metropolitan Council to expand Metro Mobility service to Lakeville, in coordination with the current service. It appropriates \$1.928 million from the general fund for the 2020-21 biennium for the costs of the service.

Currently, the coverage area for Metro Mobility reflects the geographic area of the transit taxing district as it existed March 1, 2006. The transit taxing district is a geographic subset of the seven-county metropolitan area that is statutorily identified, with additions to the district permitted based on agreement with the local unit of government. Minn. Stat. §§ 473.446, 473.4461.
