Overview

Helmets to Hardhats is a project of the Construction Careers Foundation, a nonprofit corporation focused on access to careers in the construction industry. Helmets to Hardhats focuses specifically on connecting active duty, reserve, and military veterans with construction careers. The Helmets to Hardhats initiative, and the Construction Careers Foundation, have both received direct appropriations in the past. This bill would grant \$400,000 from the workforce development fund in fiscal year 2020 and fiscal year 2021 only to Helmets to Hardhats. The bill also requires the Construction Careers Foundation to submit a report to the legislature each year.
