Date February 4, 2019

Overview

This bill authorizes the public members of the Governor's Council on Developmental Disabilities to receive per diem compensation and reimbursement for certain expenses.

The law authorizing the payments provides for a \$55 per day per diem on days spent on council activities, and expense reimbursements, including child care expenses when authorized by the council.

Among other activities, the council is directed by law to oversee certain state responsibilities related to persons with developmental disabilities required by the federal Developmental Disabilities Assistance and Bill of Rights Act of 2002.
