## Overview

Current state law requires a person to be age 18 or older to purchase tobacco, tobacco products, electronic delivery devices, and nicotine and lobelia delivery products. This bill raises the age for persons to purchase these items to 21 or older. It also modifies the penalties for selling, providing, or furnishing these items, and for purchasing or attempting to purchase these items if under age 21; requires nonmonetary civil penalties to be established for certain violations; and makes other changes to the Clean Indoor Air Act and statutes governing regulation of the sale of tobacco and related products.
