Overview

H.F. 118 would modify the existing credit for parents of stillborn children to clarify which individuals qualify for the credit. As proposed, only residents and part-year residents would qualify, except for nonresident spouses of resident members of the armed forces. In addition, eligible individuals may be either the individual who gave birth and is listed as a parent on the birth certificate or the first parent listed on the birth certificate.

Summary

| Section | Description |
|---------|---|
| 1 | <p>Credit allowed.</p> <p>Modifies the stillbirth credit to provide that it is allowed to an “eligible individual”(defined in section 2) and to eliminate the test that allows the credit based on who would have qualified to claim the stillborn child as a tax dependent.</p> <p>In addition, apportionment of the credit for nonresidents is eliminated. A nonresident who is an eligible individual (e.g., the nonresident spouse of a Minnesota resident member of the military) would be allowed the full credit. Apportionment would continue for part-year residents—that is, individuals who move into or out of the state during the tax year based on the percentage of their income that is derived from Minnesota sources.</p> <p>Effective date: Retroactive to tax year 2016 (original effective date of the credit).</p> |

- a Minnesota resident or the nonresident spouse of a member of the military who is a Minnesota resident;
 - the individual who gave birth and is listed as a parent on the certificate of birth (or the first parent listed on the certificate of birth resulting in stillbirth if there is no individual meeting this requirement); or
 - for a stillbirth outside Minnesota for which no certificate of birth was issued, the individual who gave birth.
- **“Stillbirth”** is defined by reference to the statute that requires a fetal death report, but without regard to whether the birth occurs in Minnesota.

Effective date: Retroactive to tax year 2016 (original effective date of the credit).
