

Subject Sales tax exemption for contractor purchases for government and certain nonprofit construction projects

Authors Swedzinski and others

Analyst Alexandra Haigler

Date February 10, 2021

Overview

Provides a sales tax exemption for contractor-purchased building materials for local governments and nonprofits that already have an exemption if the entity purchases the building materials themselves. The tax would be paid at the time of the purchase and the local government or nonprofit entity would apply for the refund. Effective after June 30, 2021.

This will allow these entities to benefit from a sales tax exemption on all construction materials regardless of whether they do an all-inclusive construction contract or separate contracts for material and for labor.
