Overview

This bill modifies requirements relating to commissioners that are appointed by a court to serve on a panel that decides the value of property in an eminent domain process. The changes are effective August 1, 2021.

Summary

Section	Description
1	Appoint commissioners for damages. Requires that a person must reside in Minnesota to be appointed by a court to serve on a property valuation panel in the eminent domain process.
2	Commissioner qualifications. Modifies the timing of a court's inquiry into potential conflicts of interest, or appearance of impropriety, of a person appointed by the court to serve on a property valuation panel in the eminent domain process, so that the inquiry does not have to take place prior to appointment.
