

Subject Southeast Minnesota health care simulation training center

Authors Boldon and Liebling

Analyst Anna Scholin

Date February 25, 2022

Summary

Appropriates \$11,100,000 in fiscal year 2023 from the general fund for a grant to Greater Rochester Advocates for Universities and Colleges (GRAUC) to create a state-of-the-art simulation center for training health care workers in southeast Minnesota, which will be supported by user fees once up and running. Requires a report to the legislature by January 15, 2024, including an independent financial audit of grant funds that details the training provided at the center.
