Subd. 1. Relative search requirements. Adds current caregivers of a child's siblings to adults who must be notified of a child's removal. Makes clarifying changes; specifies that the agency has a continuing responsibility to search for, identify, and notify relatives.

Subd. 2. Relative notice requirements. Clarifies that notice to relatives may be oral or written; requires documentation of notice in the child's case record; adds the order or placement preference to the required notice.

Allows a relative to begin receiving notice once they provide a current address, if they had previously failed to do so. Specifies that a relative's decision not to be a placement resource or participate in case planning must not be the sole basis for the court to rule out that relative.

Adds the following to the required relative notice:

- adoption home study requirements
- explanation that the agency is required to establish permanency for a child, regardless of the relative's response
- that if the relative responds to the notice, the relative may receive information about participating in the child's family and permanency team if the child is placed in a qualified residential treatment program

Specifies that a finding that the agency exercised due diligence does not absolve the agency from continuing to contact, engage, and consider relatives for placement. Allows the court to order the agency to reopen a relative search at any point.

Removes the agency's ability to ask the court to modify the agency's duty to send the permanency notice to relatives or relieve the agency of its duty to send the notice under certain circumstances. Clarifies that the permanency notice must be sent to relatives who responded to a notice sent any time during the child's case and specifies that a relative's failure to respond or timely respond to the notice is not a basis for ruling out that relative as a permanent placement option or to delay permanency for the child.

19 Permanency dispositions when child cannot return home.

Amends § 260C.513. Removes language specifying that termination of parental rights and adoption or consent to adoption are preferred permanency options.

Allows the court to order the agency to place the child with the moving party upon approval of an adoption home study; requires the agency to promote and support ongoing visitation and contact with the moving party until placement; requires the agency to update the court and inform the court of any barriers to approval within certain timeframes; and requires the court to dismiss the order for adoptive placement if the party is unable to obtain an approved adoption home study. Section Description - Article 20: Opioid Settlement

The amendment to paragraph (g) eliminates the requirement that money received from a settlement with a consulting firm working for an opioid manufacturer or distributor be transferred into the separate account, with the commissioner of management and budget then transferring from the separate account into the opiate epidemic response fund an amount equal to the estimated cost of medication-assisted therapy exemption (the exempting of opioids used for medication-assisted therapy from being counted toward the opioid volume threshold of 2 million or more units used to determine which manufacturers are subject to the opioid product registration fee). Instead, the section requires this money to be deposited into the settlement account within the opioid epidemic response fund, and be appropriated to the commissioner of human services to award as grants as specified by the Opiate Epidemic Response Advisory Council.

Provides an immediate effective date.

3 Determination of an opiate product registration fee.

Amends § 151.066, subd. 3. Strikes a reference to the separate account into which settlement funds are to be deposited under current law. This is a conforming change related to the elimination of the special account. This change is made in a section requiring the Board of Pharmacy to report to the commissioner of management and budget the cost of exempting opiates used for medication-assisted therapy from being counted when determining whether a manufacturer meets the quantity threshold for being assessed the opioid registration fee (the section repeals this reporting requirement). Provides an immediate effective date.

4 Grants.

Amends § 256.042, subd. 4. Updates cross-references to reflect the establishment of two accounts within the opiate epidemic response fund. Requires the advisory council to determine grant awards and amounts based on funds appropriated to the commissioner of human services from the registration and license fee account and the settlement account. Provides an immediate effective date.

5 Establishment.

Amends § 256.03, subd. 1. (a) Requires the commissioner of management and budget to establish two accounts within the opiate epidemic response fund – a registration and license fee account and a settlement account.

(b) Requires the opiate product registration fee and certain license fees assessed by the Board of Pharmacy to be deposited into the registration and license fee account.

(c) Requires any money received by the state from a settlement agreement, assurance of discontinuance, or court order related to the violation of consumer fraud laws in the marketing, sale, or distribution of opioids or other illegal actions

contributing to the excessive use of opioids, to be deposited into the settlement account.

Provides an immediate effective date.

6 Appropriations from registration and license fee account.

Amends § 256.043, subd. 3. Makes conforming changes to existing opioid-related funding initially authorized in 2019, to reflect establishment of the registration and license fee account within the opiate epidemic response fund. These changes clarify that this funding is from the registration and license fee account (the funding language in current law refers just to the opiate epidemic response fund); no changes are made in the appropriation amounts. Codifies an ongoing appropriation for Results First evaluations that is currently uncoded. Changes terminology to refer to Tribal social service agency initiative projects, rather than tribal social service agencies. Provides an immediate effective date.

7 Appropriations from settlement account.

Amends § 256.043, by adding subd. 3a. (a) Specifies that appropriations in this section are made from the settlement account in the order specified.

(b) Requires money in the settlement account to be transferred to the registration and license fee account under subdivision 3, if the balance in the registration and license fee account is not sufficient to fully fund the required appropriations.

(c) Appropriates \$209,000 in fiscal year 2023 and \$239,000 in fiscal year 2024 and subsequent fiscal years to the commissioner of human services to administer grants awarded under paragraph (e). Appropriates \$276,000 in fiscal year 2023 and \$246,000 in fiscal year 2024 and subsequent fiscal years to the commissioner of human services for data collection and analysis of settlement funds.

(d) After any appropriations under paragraphs (b) and (c), appropriates each calendar year to the commissioner of human services, for distribution to Tribal social service agency initiative projects to provide child protection services to children and families affected by addiction, an amount equal to the allocation provided for this purpose from the registration and license fee account under subdivision 3. Provides that the requirements in subdivision 3 related to proportional distribution, annual reporting, and maintenance of effort apply to the appropriation under this paragraph.

(e) After the appropriations in paragraphs (b) through (d), appropriates the remaining amount in the account to the commissioner of human services, to award grants as specified by the Opiate Epidemic Response Advisory Council.

Section Description - Article 20: Opioid Settlement

(f) Provides that funds for Tribal social service agency initiative projects and OERAC grants may be distributed on a calendar year basis (as are funds for these purposes distributed from the registration and license fee account).

Provides an immediate effective date.

8 Settlement; sunset.

Amends § 256.043, subd. 4. Specifies that any money received as a result of an opioid settlement agreement directly allocated or distributed and received by either the state or a municipality (units of local government) shall be counted towards the \$250,000,000 threshold, at which license fees are reduced and the opiate product registration fee is eliminated. Also provides that the fee reduction and elimination of the opiate product registration fee cannot occur before July 1, 2031 (the date under current law at which this can occur is July 1, 2024). Provides an immediate effective date.

9 Appropriations.

Amends Laws 2019, chapter 63, article 3, § 1. Makes conforming changes related to the codification of an ongoing appropriation for Results First evaluations.

10 Commissioner of management and budget.

Amends Laws 2021, First Special Session chapter 7, article 16, § 12. Makes conforming changes related to the codification of an ongoing appropriation for Results First evaluations.

11 Transfer; elimination of an account.

(a) Requires the commissioner of management and budget to transfer any money in the separate account to the settlement account in the opiate epidemic response fund, to be appropriated to the commissioner of human services to be awarded as grants as specified by OERAC.

(b) Once the money is transferred as provided in paragraph (a), requires the commissioner to eliminate the separate account.

Provides an immediate effective date.
