

## Senior Citizens Property Tax Deferral Program

### *What is the Senior Citizens Property Tax Deferral Program?*

The Senior Citizens Property Tax Deferral Program allows property taxpayers who are 65 years or older, and whose total household income is \$60,000 or less, to defer a portion of their homestead property taxes until some later time. It allows senior citizens whose property taxes are high relative to their incomes, but who wish to stay in their homes, an option for paying their property taxes.

### *How does it work?*

Regardless of how high the tax is on the homestead, the taxpayer initially pays an amount equal to only 3 percent of the total preceding year's household income. The state pays any amount over 3 percent, called the "deferred tax," to the county in which the home is located. A lien attaches to the property. The deferred tax is a loan. Interest on the loan is calculated at the same rate as unpaid state taxes; a floating rate that cannot exceed 5 percent. Before the owner can transfer the title of the property, the deferred tax plus interest must be repaid.

For example, John and Mary Jones own a home; its total property tax is \$1,400. They have a total household income of \$30,000. Under this program, they must pay \$900 in tax (3 percent of \$30,000); the remaining \$500 (\$1,400 minus \$900) is deferred.

### *Who qualifies?*

In order to qualify for the program, **all** of the following criteria must be met:

- The property must be owned and occupied as a homestead by a person at least 65 years old (If married, one spouse must be at least 65 years old and the other must be at least 62 years old)
- Total household income must be \$60,000 or less for the calendar year preceding the year of the initial application
- The home must have been owned and occupied as the homestead of at least one of the homeowners for at least 15 years before the initial application
- There must be no state or federal tax liens or judgment liens on the property
- The total unpaid balances of debts secured by mortgages and other liens on the property, including deferred tax and interest amounts under the program, unpaid and delinquent special assessments and property taxes, penalties and interest (but excluding the current year's property taxes and Property Assessed Clean Energy liens), do not exceed 75 percent of the assessor's estimated market value for the current year

<b><i>What information is the applicant required to provide?</i></b>	An applicant must provide, at her or his own expense, a report detailing any mortgages, liens, judgments, or unpaid property taxes on the property. For “Abstract” properties, these reports must be prepared by a licensed abstracter. For “Torrens” properties, the information is part of the “Condition of Register” available from the county recorder. If owners are unsure which type of property they have, they may find out from the county recorder.
<b><i>Does the taxpayer need to annually reapply?</i></b>	No, once a taxpayer is enrolled in the program, annual applications are not required. However, if household income exceeds \$60,000 in any calendar year, the owner must notify the Department of Revenue, and no <i>further</i> property taxes may be deferred. However, the owners will remain enrolled in the program, and once their income falls below the \$60,000 threshold again, they may notify the state and request that the deferral be resumed.
<b><i>Can the taxpayer still file for refunds?</i></b>	Yes, a taxpayer is still allowed to file for the property tax refund and any other property rebates that the state offers. However, no direct cash payments will be made to the taxpayer. Rather, the amount of the refund will be applied to the total amount of the deferred property tax on the taxpayer’s home. The property tax refund is calculated on the full tax amount.
<b><i>When does it terminate?</i></b>	The deferral terminates when <b>any one</b> of the following events occurs: <ul style="list-style-type: none"> <li>• the property is sold or transferred</li> <li>• all qualifying homeowners die</li> <li>• the homeowner notifies the Commissioner of Revenue, in writing, of intent to withdraw from the program</li> <li>• the property no longer qualifies as a homestead</li> </ul>
<b><i>How many people participate in the program?</i></b>	For property taxes payable in 2016, 327 people participated in the program across the state. The total amount of property taxes deferred for fiscal year 2017 was \$1.2 million.
<b><i>Where does a taxpayer apply for the program?</i></b>	Applications are available in the county auditor’s office or may be obtained from the Department of Revenue’s website at <a href="http://www.revenue.state.mn.us/Forms_and_Instructions/crsd.pdf">www.revenue.state.mn.us/Forms_and_Instructions/crsd.pdf</a> .
